

SLIDE 1: COVER

AuraMed AI: Autonomous Clinical Documentation & ICD-10 Coding for Hospitals

Seed Round Pitch Deck - Confidential

Founders: Dr. Marcus Vance (MD, ex-Mayo Clinic), Elena Rostova (ex-Google Health AI)

SLIDE 2: THE PROBLEM

- Physicians spend 16+ hours/week on Electronic Health Record (EHR) data entry and billing codes.
- Over \$28B in revenue is lost annually by US hospital networks due to downcoding and claim rejections from improper ICD-10 medical coding.
- Severe physician burnout: 63% report clerical burden as their primary reason for considering early retirement.

SLIDE 3: OUR SOLUTION

AuraMed AI: Ambient Clinical Intelligence & Real-Time Automated Billing

- Listens to patient-physician consultations via secure iPad/room microphone.
- Ambiently generates structured clinical SOAP notes directly into Epic and Cerner EHR.
- Automatically maps symptoms and diagnoses to compliant ICD-10 and CPT reimbursement codes in real-time.
- 98.4% clinical coding accuracy verified by certified medical coding auditors.

SLIDE 4: MARKET OPPORTUNITY (TAM / SAM / SOM)

- Total Addressable Market (TAM): \$42B global healthcare documentation & revenue cycle management software market.
- Serviceable Addressable Market (SAM): \$11.5B in US outpatient clinics and regional hospital networks.
- Serviceable Obtainable Market (SOM): \$850M initial target (Midwestern hospital networks & independent medical groups).

SLIDE 5: TRACTION & PROOF POINTS

- 8 Paid Hospital Network Pilots (representing 420 active clinical practitioners).
- Current Annual Recurring Revenue (ARR): \$620,000 (up from \$80k 10 months ago, 7.7x YoY growth).
- Average Net Revenue Retention (NRR): 134%.
- 0% logo churn over the last 9 months.
- Integration Partnerships: Official App Market partner in Epic App Orchard.

SLIDE 6: BUSINESS MODEL & UNIT ECONOMICS

- B2B Enterprise SaaS: \$350 per physician/month (Annual contracts, paid upfront)
- .
- Gross Margin: 82% (including cloud GPU inference and HIPAA compliance overhead).
- Customer Acquisition Cost (CAC): \$4,200.
- Customer Lifetime Value (LTV): \$31,500 (LTV/CAC ratio: 7.5x).
- Sales cycle: 45 to 60 days for medical groups; 120 days for enterprise hospital systems.

SLIDE 7: COMPETITIVE MOAT & DEFENSIBILITY

- Proprietary Medical Fine-Tuning: Trained on 120,000+ proprietary dual-annotated doctor-patient clinical transcripts (HIPAA-compliant de-identified data).
- Epic / Cerner Direct EHR Integration: Deep bi-directional write-back plugins that took 14 months of security audits to certify.
- Regulatory Moat: HIPAA, SOC2 Type II, and HITRUST certified architecture.

SLIDE 8: THE TEAM

- Dr. Marcus Vance, CEO: Former Clinical Chief of Medicine at Mayo Clinic Regional, 12 years in hospital administration.
- Elena Rostova, CTO: Ex-Staff Research Scientist at Google Health AI, PhD in NLP from Stanford, 9 medical AI patents.
- Kevin Patel, Head of Sales: Scaled health-tech sales at Veeva Systems from \$5M to \$40M ARR.

SLIDE 9: THE ASK & USE OF FUNDS

- Raising: \$3.0M Seed Financing (\$2.2M already committed from leading MedTech angels).
- Use of Proceeds:
 - 50% Engineering & AI Infrastructure (scaling inference throughput and multi-language support).
 - 35% Enterprise Sales & Customer Success (expanding into 25 additional hospital networks).
 - 15% Regulatory & Operations (HITRUST recertification, legal, working capital).
- Runway: 24 months to reach \$3.5M ARR and Series A milestone.
